IN THE PRESS

Global labor flow network reveals the hierarchical organization and dynamics of geo-industrial clusters (Nature Communications, 2019)

- **Indianapolis Business Journal** — IU researchers partner with LinkedIn to publish labor flow study
- **American Association for the Advancement of Science (AAAS)** — Researchers create first-ever ‘map’ of global labor flow
- **Phys.org** — Researchers map global economy in collaboration with LinkedIn

Style in the Age of Instagram: Predicting Success within the Fashion Industry using Social Media (CSCW, 2016)

- **CBS News** — Who will be America’s next top model? Ask Instagram
- **MIT Technology Review** — Machine Learning Algorithm Predicts Which New Faces Will Make It as Fashion Models
- **Communications Of The ACM** — Machine Learning Selects World’s Next Top Models
- **Vogue** — The Science of a Supermodel
- **New York Magazine** — Can You Scientifically Predict a Model’s Success?
- **Wall Street Hedge** — Scientists Can Predict America’s Next Top Model

PATENT

US Patent App. 15/229,956
Data flow based feature vector clustering

February 2018

US Patent 9,834,513
Apparatus for Collecting Contents using Social Relation Character and Method Thereof

July 2016
